PROFESSIONAL SUMMARY

Senior fullstack architect with **10+ years** of experience building high-performance web applications across **fintech, e-commerce, and SaaS** domains. Proven track record of architecting scalable systems — from payment gateways processing transactions across **69 countries** to AI-powered freelance marketplaces. Deep expertise in **React, Next.js, Astro, Node.js, NestJS, FastAPI** and modern cloud infrastructure. Combines engineering excellence with business acumen to deliver solutions that satisfy both C-level stakeholders and end-users while maintaining strict regulatory compliance.

PROFESSIONAL EXPERIENCE

System Design & Architect Jan 2026 — Present
Srabutan.com (Remote, Indonesia)

- Architected an AI-powered matching system that intelligently pairs clients with professionals based on skills, experience, and project requirements
- Designed a scalable microservices architecture supporting portfolio management, real-time collaboration, secure payment processing, and project tracking
- Implemented robust security measures and optimized performance for high-traffic scenarios
- Led full-stack development, infrastructure scaling, and CI/CD pipelines using GitHub Actions, Docker, and DigitalOcean
- Collaborated with the business team to align product development with market needs and drive strategic technical decisions

Tech: React • Vue.js • JavaScript • HTML5 • CSS3 • Tailwind CSS • Git • GitHub • GitHub Actions • Docker • Docker Compose • Python • Digital Ocean

Senior Web Developer Jan 2014 — Dec 2025
CITT Services (Remote, Dallas, USA)

- Developed responsive, user-friendly web applications using React, Vue, WordPress, Laravel, and HubSpot CMS
- Implemented SEO strategies that significantly improved online visibility and organic traffic for client platforms
- Architected robust backend systems and automated data synchronization workflows using n8n, Python, and Flask
- Built and maintained Docker-based deployment pipelines on DigitalOcean and Google Cloud infrastructure
- Collaborated closely with stakeholders to deliver scalable solutions modernizing digital infrastructure while meeting security and performance standards

Tech: Ubuntu • Windows Server • React • HTML5 • CSS3 • Bootstrap • PHP • WordPress • Elementor • Laravel • Vue.js • jQuery • HubSpot CMS • HubSpot Marketing Hub • Jekyll • Docker • Docker Compose • n8n • SASS • Git • GitHub • GitHub Actions • Python • Flask • Digital Ocean • Google Cloud

Host Integrator Aug 2011 — Dec 2013
Wirecard (Jakarta, Indonesia)

- Developed custom API connections and secure transaction protocols for end-to-end payment flows across multiple channels
- Wrote integration code and troubleshoot complex payment scenarios to optimize transaction processing efficiency
- Ensured PCI-DSS compliance across all payment processing implementations
- Designed automated testing frameworks to validate payment workflows
- Created technical documentation for system administrators covering web services, encryption, and financial transaction protocols

Tech: Java • HTML5 • CSS3 • Spring • Spring Boot • Hibernate

KEY PROJECTS

Srabutan.com — Freelance Marketplace

Architected Indonesia's freelance marketplace with AI-powered matching, microservices architecture, and real-time collaboration. Full-stack development with CI/CD pipelines.

BaxiaMarkets — Financial Platform

Built a 5-year fintech platform serving global traders with WordPress/Laravel/React stack, SumSub KYC compliance, multi-PSP payment processing, and responsive client portal.

CrosSyncOrder — Forex Trade Copier SaaS

Designed a real-time trade synchronization system across MetaTrader 4/5 and cTrader using WebSocket + ZeroMQ, containerized with Docker/Kubernetes on Railway.

AI-Powered Sales Dashboard

Full-stack dashboard with Next.js + FastAPI backend, integrating Google Gemini AI for natural language sales insights with markdown rendering and data visualization.

TECHNICAL SKILLS

Frontend: React • Next.js • Vue.js • Astro • TypeScript • Tailwind CSS • SASS • Bootstrap • HTML5/CSS3

Backend: Node.js • NestJS • Express.js • FastAPI • Python • GraphQL • PHP • Java • Spring

Agentic AI: Hermes Agent • ZeroClaw • OpenWork Labs — AI-powered automation, coding agents, and workflow orchestration

Databases: PostgreSQL • MySQL • MongoDB • Oracle • Prisma • Sequelize • Eloquent ORM

DevOps & Cloud: Docker • Kubernetes • GitHub Actions • Jenkins • n8n • DigitalOcean • Railway • Google Cloud • AWS

CMS & Marketing: WordPress • HubSpot CMS • Elementor • SEO • Google Analytics

Languages: Indonesia (Native) • English (C1)

EDUCATION & CERTIFICATIONS

Bachelor of Information System — Swiss German University
Specialization in Software Development • GPA 3.34

2007 — 2011
